

## QUALITY AND ENVIRONMENT POLICY

- Laboratory -

BIOCOSMÉTICA EXEL ARGENTINA laboratory has a long record of a company applied to raw material and product manufacturing, featured by quality cutting-edge technology products for skincare and haircare. In the pursuit of constant development BIOCOSMÉTICA EXEL ARGENTINA complies with international certifications that denote its standards: GMP, ISO 9001 norms and ISO 14001.

BIOCOSMÉTICA EXEL ARGENTINA implements an Integral Management System committed to continuous improvement in order to attain effectiveness and the satisfaction of clients and pertinent parties, complying with both legal and in-company requirements, for product development and for environmental purposes. For everything hereby stated BIOCOSMÉTICA EXEL ARGENTINA. Management affirms its commitment in quality and environment issues via the bases of its Quality and Environment Policy stated as follows:

The proper development of Good Manufacturing Practices (GMP) and a Quality and Environment Management System is a responsibility of all and counts on the Management's back up and commitment.

•  
Environmental protection policy with measures and actions focused on the prevention of any kind of pollution that could occur as a result of processes due to our activity.

•  
Improve the yield and effectiveness of our organization based on process management and risk assessments, allowing us to manage our own activities and resources while assessing the impacts each one of the processes exerts,

This Quality and Environment Policy is in constant evolution, being reviewed for its constant adequacy at least by the Management's System Review.

DESARROLLO, ELABORACIÓN Y ENVASADO DE PRODUCTOS COSMÉTICOS PARA EL TRATAMIENTO CORPORAL, CAPILAR Y FACIAL, INCLUYENDO ELABORACIÓN DE INGREDIENTES ACTIVOS PARA LA INDUSTRIA COSMÉTICA.
